

Results of the ATENEA Call 1 – Final Ranking

We are pleased to announce the final results of the ATENEA Call 1 selection process.

The evaluation and selection procedure was carried out in accordance with the principles of transparency, excellence, equal treatment and merit-based evaluation, following the procedures described in the ATENEA Guide for Applicants and the Horizon Europe MSCA COFUND programme.

The final ranking below has been established following the eligibility check, external scientific evaluation, interview stage and ethics review. The top 10 ranked candidates have been selected for an ATENEA Fellowship, subject to the successful completion of the recruitment process. The following 4 candidates constitute the reserve list and may be offered a fellowship in the event of a withdrawal.

Rank	Acronym	Status
1	BIO-PHASE	Selected
2	ECM-HEART	Selected
3	WOUND-ACT	Selected
4	GB-MPEAs	Selected

12	MIMAS	Reserve List
13	SYNERGROW	Reserve List
14	MXPOLCAP	Reserve List

Important Information

- Individual evaluation results, including scores and evaluators' comments, have been communicated confidentially to each applicant. The ranking published below reflects the final outcome of the selection process.
- The offer of an ATENEA Fellowship is subject to the successful completion of the recruitment process and the fulfilment of all programme requirements.

- Candidates on the reserve list may be contacted should a selected candidate decline the fellowship or become ineligible before recruitment.
- For any questions regarding the selection process, please contact the ATENEA Project Management Office at info@atenea-cofund.eu.
